FADE IN:

EXT. OUTDOOR PATIO - MORNING

LISA (early 30's) is seated at the breakfast patio table eating a green salad when JIM (Mid 30's) sits across from her with a bowl of cereal.

LISA
That milk in your cereal, did you
squirt it directly from a cow's
tit, or did you refrigerate it
first?

JIM
I didn't know this cow personally.

LISA
Rapist. You could have at least
kissed her first.

JIM
It's a bit early to be kissing on a
cow.

LISA
But it's okay to tug on her
titties? How would you like it if
someone was pulling on your pecker
at this hour without acknowledging
your face?

JIM
Happens all the time.

LISA
Soon as I said it...

JIM
Let me ask you something, Miss
roots and fruits for breakfast.

LISA
Shoot.

JIM
If I took a bucket of cow dung and
grew some tomatoes in it, would you
put them on your salad?

LISA
I talk a lot a bullshit but I don't
eat it.

JIM

What do you think fertilizer is?
It's freeze dried cow poo.

LISA

They don't freeze it.

JIM

They dry it. And then they sprinkle
it on your spinach. Every time you
take a bite out of a carrot, you
may as well be crunching on a turd.

LISA

Well, I'll have you know something
since we're on the subject. Every
time a cow gets milked by a massive
industrial metal mouth, it pulls so
hard on her utters that they swell
up with puss and bleed. All that
nipple snot? Gets mixed in with
your milk.

JIM

So why isn't milk pink or yellow?
They obviously take it out.

LISA

Not all of it. The government
actually allows a legal limit of
something like seventy million puss
cells per tablespoon of milk.

Jim puts a spoon of cereal in his mouth and munches.

LISA (CONT'D)

You just ate a spoonful of puss.

JIM

That's disgusting.

LISA

So not only are you stealing food
from poor little baby calves,
you're a bovine vampire.

Jim looks down at his bowl of cereal.

Little round pieces of toasted oats float around inside of
off-white colored milk.

JIM

Well, I'd rather suck on a cow's
tit than eat a bowl of shit.
