**Peace One Day 20th Anniversary**

**Dear Mr. Quintard & Mr. Pitt,**

Imagine - the Biggest names in music from around the world all arriving at Miraval Studios on the same day to record a single song for an act of charity.

The Walls of Miraval have housed some of the most iconic sonic creations ears have ever known. What a momentous way it would be to reintroduce this magical music environment back to the world.

I'm contacting you about the 20th Anniversary of Peace One Day on 21 September, 2022.

Peace One Day (POD) is a United Nations backed resolution recognized as the official International Day of Peace.

Historically, on this day, cease fires around the world are observed affecting millions of lives.

The POD organization has created an objective to make 3 Billion people aware of Peace One Day by 2025. They've come close to 2 billion impressions and are now gearing up for the 20-year Anniversary.

Each year on Sept. 21st, Peace One Day hosts a live performance of world class musicians that support their cause. The legendary Sting, who also recorded at Miraval Studios, has been among the participants.

I have taken it upon myself to compose a song to commemorate and amplify this 20th Anniversary milestone event.

"Love Peace Harmony" is intended to be recorded, performed, and distributed in the tradition of "Do They Know It's Christmas" and "We Are The World".

I intend to donate "Love Peace Harmony" to Peace One Day and relinquish all proceeds to the organization.

Mr. Quintard & Mr. Pitt, both of you are famously renowned for your humanitarian efforts to help the disabled and the less fortunate. If it were not so, I would not be writing to you.

But it is, so I'm asking you to please donate the use of Miraval Studios for the recording of "Love Peace Harmony" and allow a video to be made of the event.

Because of the scale and gravity of what I'm proposing, I anticipate hesitancy. However, if Peace One Day knows that they already have your blessing and that you're willing to participate, that's a Giant Step closer to realization.

Who am I?

A writer with a desire to Elevate Humanity.

Please listen and download Love Peace Harmony here:

Hi Damien,

I am the Love Peace Harmony songwriter for Peace One Day.

I sent a message on the Miraval Studios website with a proposal for a charity event.

Thank you for your consideration.

Cheers!

Robb
