INTRODUCTION

IECEX Certification of Personnel Competence for Explosive Atmospheres is one of the schemes under the IECEx Certification System for the certification of personnel competence for persons engaged in work and services related to explosive atmospheres. Industry within the explosive atmosphere with complexity of equipment requires skilled and knowledgeable personnel to perform proper hazardous area classification, design, installation, inspection, maintenance and repair of explosion protected equipment. A Certificate of Personnel Competence (CoPC) is issued when compliance with the scheme requirements has been achieved and the personnel are competent according to the Units of Competence in the scope of the application.

SIRIM QAS International is now an approved IECEx Certification Body for the IECEx Certification of Personnel Competence for Explosive Atmospheres (CoPC). Personnel will be assessed based on the scheme operational documents as well as IEC 60079 and IEC 61241 series of standards.

OBJECTIVE

To share on the outcome and the development of IECEx Certification of Personnel Competence for Explosive Atmospheres (CoPC) that will benefit the local authority and industries.

WHO SHOULD ATTEND?

Persons who is working in or associated with hazardous areas or explosive atmospheres.
