ABOUT

Wade Wilson is a former Special Forces operative who now works as a mercenary. His world comes crashing down when evil scientist Ajax tortures, disfigures and transforms him into Deadpool. The rogue experiment leaves Deadpool with accelerated healing powers and a twisted sense of humor. With help from mutant allies Colossus and Negasonic Teenage Warhead, Deadpool uses his new skills to hunt down the man who nearly destroyed his life.

DEADPOOL QUOTES

I had another Liam Neeson nightmare. I kidnapped his daughter and he just wasn't having it. They made three of those movies. At some point you have to wonder if he's just a bad parent.
