Rodney Wright

Industrial Designer

Education

2017 - Present

Carleton University

Major - Industrial Design

Minor - Business

2013 - 2017

Osgoode Township High School

Experience

2015 - Present

Owner, Gourmet Grilled Cheese

Fully innovated, designed, and built my grilled cheese business at age 15. I attend the first and second largest farmers' markets in Ottawa weekly. I employ 2 part time workers year-round. Responsibilities include: Managing employees' schedules, arranging transportation, payroll and WSIB, adhering to market and food safety guidelines, strengthening customer experience, maintaining a social media presence, and ensuring optimal use of our farm's ingredients so as to avoid waste.

2019

Photographer, Photos Unlimited

Worked as an on-location photographer during the summer of 2019. I was responsible for planning a time and location with clients, ensuring client satisfaction, editing/uploading photos on a timeline, and adhering to an expected company style. My work included photographing family portraits, graduation shoots, baby showers, engagement shoots, weddings, and individual models.

I am an industrial design student from Ottawa, Ontario. Growing up on a farm I developed a strong work ethic and passion for problem solving. Often with only the budget, materials and tools we had on hand, my dad and I would rush to fix problems before the rain came. Industrial design has built upon this foundation, teaching me a new, user-centred mindset, the importance of research, sketching, and CAD skills to develop quality products.

I am seeking employment in the creative industry. Most importantly, I will always endeavour to produce the highest quality of work possible to benefit my employer.
