

Pasties

'pass-tees'

Country of Origin:

Cornwall, England (maybe...)

A traditional food filled with beef, diced potato, rutabaga (traditionally), carrots (sometimes), onion, salt, pepper, and baked in a crust. Pasties were made popular in the Iron Ore and Copper mines of the Western Upper Peninsula

The Western U.P. ancestry is predominantly Finnish. Another version of the Pasty (everything but rutabaga & carrots) is said to have originated from Finnish American's and is the predominant version of the pie. The Finlanders of the Western U.P. also make claim to the origin the Pasty.

True U.P. Cuisine!
