

Gojek Clone App Development

An On Demand Multi Service Super App

RUN MULTI BUSINESSES WITH ONE APP

Gojek Clone App Development

What is a Gojek Clone App?

The ready-made **Gojek clone** is a mobile application that serves as a multi-service platform. It is based on the Gojek app, which began in Indonesia and served as a digital tool for locating and hiring bike taxis.

With time, the app grew in popularity due to its enormous user base in delivery and other businesses. The on-demand multi-services are modelled after the Gojek app.

How Gojek Clone Can Help Your Business?

Gojek clone app offers various online services such as rides, delivery, home, courier, and more.

Integrating several services into a single platform simplified corporate processes by removing the need for multiple apps and panels to handle various transactions.

Benefits of Gojek Clone App

- Ready-made app scripts
- Saves time and money
- Run 52+ businesses with one app
- Comes with advanced features
- Separate app for user & service provider
- Advanced admin panel
- Intuitive UI

Businesses You Can Run With Gojek Clone App

- Online taxi business
- Online food delivery
- Online grocery delivery
- Electrician on-demand
- Plumber on-demand
- Car mechanic on-demand
