

Participation in Americans All

Storytelling is a wonderful tool, not only to help students communicate better but also to help families pass on knowledge and experiences to current and future generations. In addition, it can help bring communities together by sharing their common histories, rather than their differences. After schools become members of Americans All for free, they can give their Americans All ID number to students and their families and alumni so they can create and publish life stories on our website, at no cost. Americans All members will find it easy to start creating their life stories. Our template only requires individuals to fill in their name, date of birth and a summary not to exceed 60 words. Additional story text, hyperlinks and photographs can be added over time.

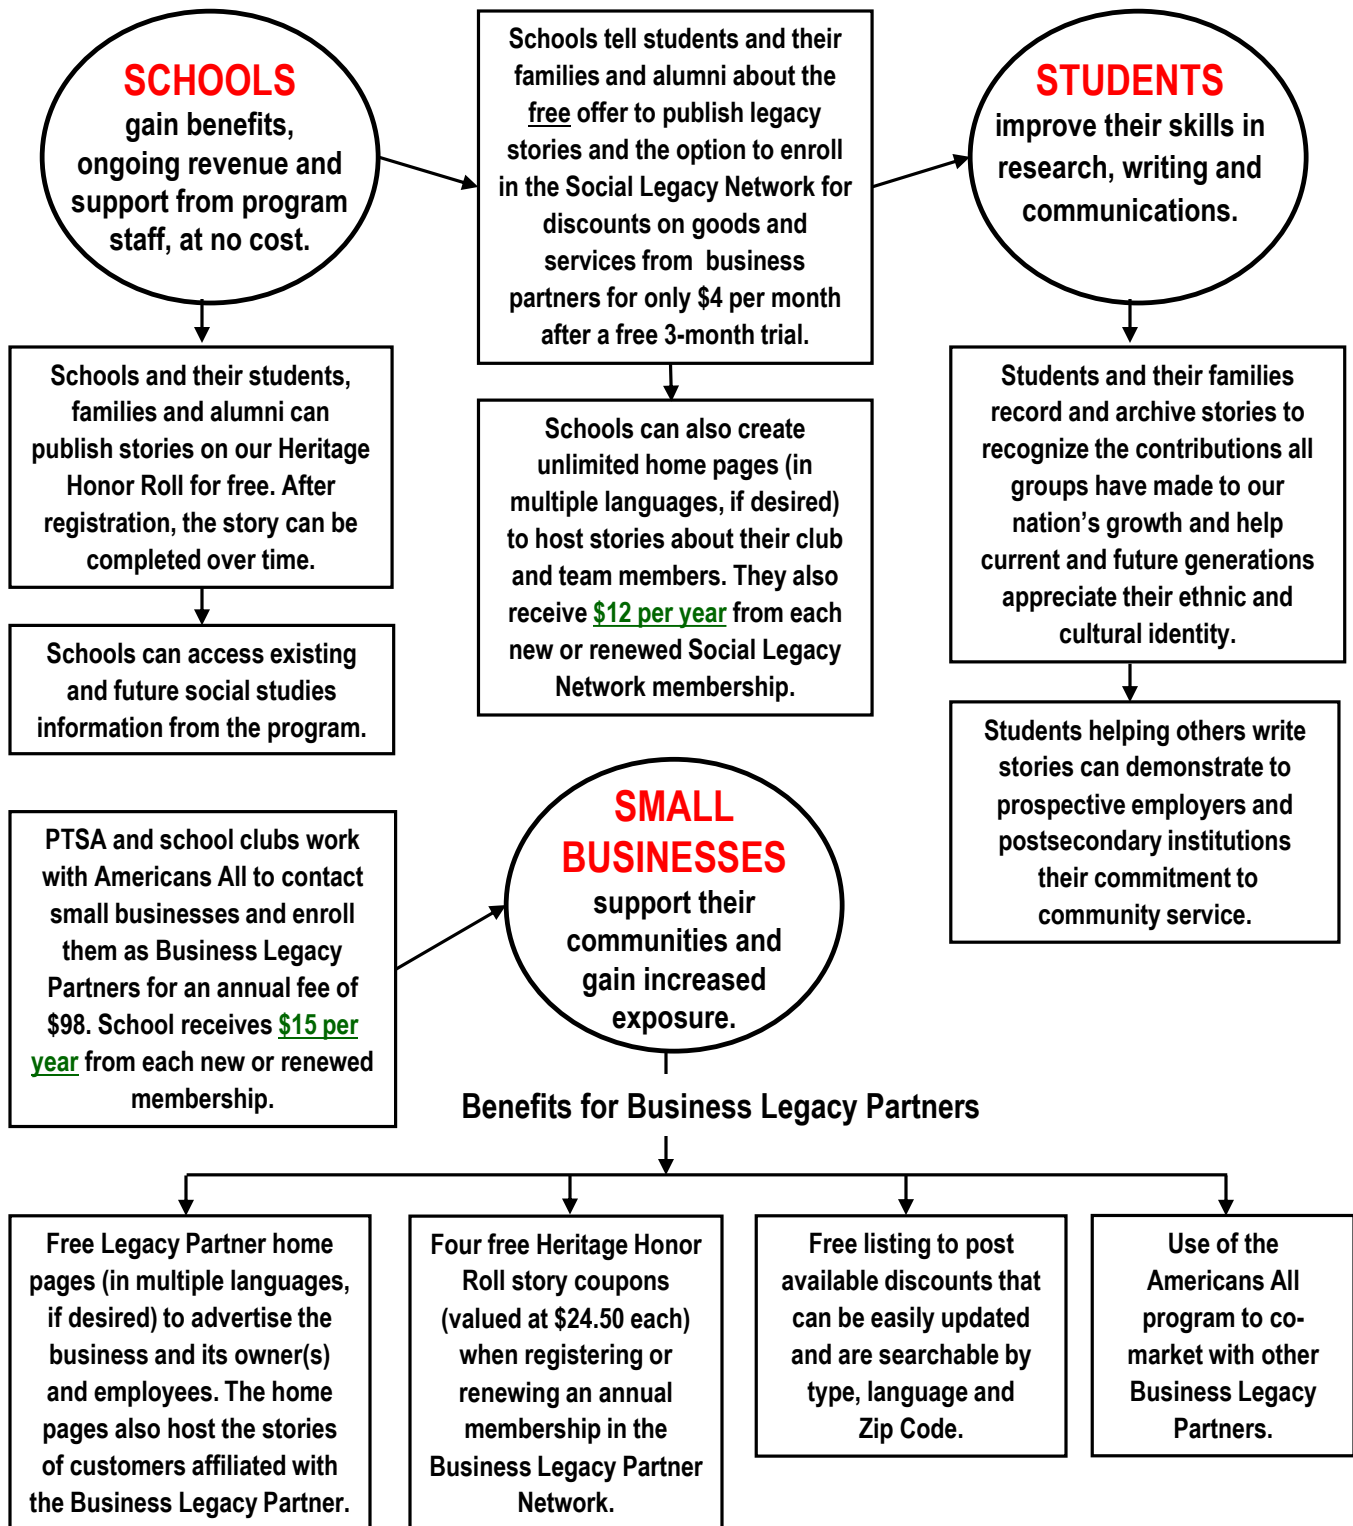

Our grassroots program aims to provide schools with short- and long-term sources of supplemental income. Schools frequently ask businesses for financial support, but rarely do they provide anything of value in return. Under our approach, schools earn ongoing revenue by helping local businesses increase their exposure when they enroll in Americans All; the program will support schools' outreach to businesses. After a free 3-month trial, Americans All members can subscribe to our Social Legacy Network to continue receiving discounts on goods and services from our business partners and get more benefits from Americans All. The total revenue a school receives from our program depends on the number of businesses that are enrolled in the program and the number of Americans All members who subscribe to the Social Legacy Network.

Executive Summary

[Americans All](#) is a nonprofit community outreach program that specifically benefits schools and small businesses. The program uses a unique storytelling tool—the [Heritage Honor Roll](#)—to facilitate legacy preservation and enable people to enhance their communication skills.

Schools, students and their families, faculty and alumni participate **for free**. Schools can use our tool to educate students about the contributions of different ethnic and cultural groups and take advantage of supplemental social studies resources we have developed. Families can use our tool to pass on knowledge and experiences to current and future generations. Without this information, children will neither understand their roots nor develop their ethnic and cultural identity. In addition, storytelling brings communities together by sharing people's common histories, rather than their differences.

Local businesses and service providers participate in our program as Business Legacy Partners, for a nominal fee. They can leverage stories about their business or practice to build closer relationships with current and future customers and clients. They can also use our program to share discounts on their goods and services with Americans All Social Legacy Network members.

This approach enables schools to receive ongoing revenue from the fees paid by Business Legacy Partners and later by Americans All members who upgrade to join our Social Legacy Network for only \$4 per month after a free, 3-month trial. Members never lose their Americans All program benefits if they choose not to subscribe to the network. Individuals not affiliated with a school can participate as lifetime members in Americans All for a one-time membership cost of only \$24.50.

The program is owned by the 33-year-old People of America Foundation.
