Americans All invests 80 percent of the revenue from Social Legacy Network subscribers and Business Legacy Partner members in communities that support our program. In addition, our supplemental social studies resources help students succeed in our democracy, economy and workforce and reinforce the value of diversity, tolerance and acceptance. We also honor the contributions that immigrants continue to make to our nation, and we use historical timelines to establish context for their stories.

# Blueprint for creating a legacy story for an individual or a group on the Americans All Heritage Honor Roll

You must first register to become a member of Americans All to access all program benefits, including the ability to create and publish a legacy story. Creating and publishing a legacy story is easy and fun. We have created tutorials to help guide you through each step. For your convenience, links to these tutorials are included at the end of this document.

**Step 1:** Visit [www.americansall.org](http://www.americansall.org) and click on the “**Create New Account**” tab at the top right of the home page to register for Americans All.

**Step 3:** Click on the Heritage Honor Roll tab at the top right of the page for examples of individual and group legacy stories. All stories include a summary that appears on the Heritage Honor Roll landing page, because more than one person may share the same name.

Stories can be searched by last name or group name and, if needed, by language and state.

Stories cannot exceed 2,000 words and do not have to include photos, logos or other images (see story on [Brendon Fitzgerald](#)).

An individual or a group can have more than one story on the Heritage Honor Roll, because members have opted to recognize different contributions of the individual or group (see stories on [Ronald Reagan](#) and [Polly Bemis](#)). Stories can also appear in multiple languages (see stories on [Mariano Vallejo](#) and [Marie-Claire Miller](#)).

Stories may include photos, logos or other images. Some contain just one or two images (see stories on [The Alamo](#) and [Rihei Onishi](#)) while others have several images, such as this [example](#).

**Step 4:** To begin working on your story, create a new folder on the home screen of your computer or tablet so that all the elements to create your story can be stored in one place. Inside the new folder, create additional folders to house all the images you may want to use for your story. You will also need to create a word document to prepare your text before you cut/paste it into our website.

**Step 5:** Click on [How to Create a Legacy Story and Storytelling for Younger Children](#) for some helpful hints. Highlights from that link appear below.

Everybody has a story to tell; you do not have to be a celebrity or public figure to create yours. Your life is more interesting and meaningful than you think, and you should record your story while you can still do so. Everybody has survived some circumstance or overcome some obstacle—information that can be passed on to inspire others and help them learn who they are and where they came from. And, more importantly, you are best qualified to determine how you want to be thought of now and remembered later.

And you may be surprised that there are people around you who, when you reach out to them, will be excited to help you create your story. Whether you are writing your story yourself or helping someone else to do so, consider these tips.

- There is no one correct format for your story. It can be told chronologically or start with a specific event. It can be a memoir, a tribute, an autobiography, an ethical will or an archive of information. It can focus on as many aspects of your life as you choose or share experiences you believe made you who you are today.
- You can change the format of your story as you proceed simply by rearranging the paragraphs and adding new transition sentences.
- You do not need to include everything you did or everyone you know or have interacted with in your story. Some things are better left unsaid or unknown.
- Your story can be a combination of written text, images and audio-visual recordings.
- Your story can include hyperlinks to other websites to provide additional (e.g., historical) information tied to an event in your life.
- Your story does not have to be completed in one creative session; it can be saved in draft form while you continue to work on it.
- After your story has been published, it can be updated at any time, with previous editions archived.

Click on this link for notes on how to begin the process. We also provide questions and topics to help guide you through the thought process.

One additional note. For an Emory University research project, [Dr. Marshall Duke](#), a renowned psychologist, created the *Do You Know Scale*. The survey instrument asks children 20 “[Do You Know scale of questions](#)” about their family and its history.

The results were quite surprising. Turns out the children who knew more about their family’s history had higher levels of self-esteem, lower levels of anxiety and were much better at facing challenges. Yes, family stories are a critical part of a child’s emerging identity and well-being.

## Americans All Website Tutorials

Americans All members will find it easy to start creating their stories. Our process only requires individuals to fill in their name, pertinent dates and a summary not to exceed 60 words. This last story box can house an optional shortened version of your story that can be printed in an 8 ½ x 11 format. “Print Version Headlines” and “Photographs and Logos” will automatically transfer to this printable page (see example below).

**Allan Kullen**  
Businessman and Social Entrepreneur  
February 20, 1942 -

Allan Kullen was born on February 20, 1942, in Washington, DC, and grew up in the area. His father had a success in the printing industry, so Allan chose to attend the Carnegie Institute of Technology in Pittsburgh, PA, after graduating from high school in 1959. He graduated from its School of Printing Management in 1963.

To gain more business training, Allan then entered an MBA program at the University of California, Berkeley. During his first year, he met representatives of NBBS, a Dutch travel organization that organized student trips to Europe, and began putting out a daily newspaper for the eight-day crossing by sea. He also accepted an internship as a consultant for a printing company in Amsterdam. That fall, rather than returning home, he traveled extensively where, for the first time, he recognized the contributions that diverse cultures make to world history. Allan subsequently decided to enter the workforce rather than resume his schooling at Berkeley.

He began his career as marketing director for his father's printing firm, Kaufmann Press, Inc. When his father's company was acquired by a public company, Publisher's Company, Inc. (Pubco), he went to work for Pubco, first assisting with its acquisitions program and later joining its publishing division. When Pubco began to fail, Allan realized he needed to build a future where he could better control his own destiny, especially since he was now married to the former Diane Klein and they had two children, Allison and Todd. In 1974, he acquired the assets of a struggling printing company and formed Todd Allan Printing Co., Inc., which he ran until 2013. During that period, he grew the company through internal sales and roll-up acquisitions of eight smaller firms, at its peak achieving \$16 million in annual sales and employing 127.

While working at Pubco, he observed that some of its large printing vendors also owned commercial educational properties, and he brought that manufacturing strategy to Todd Allan. He set up his own publishing company in the early 1980s by buying a program called *The First Experience*, which featured photographs and texts on the contributions that immigrants entering through Ellis Island made to our nation's development. At the same time, he was printing for the Coordinating Committee for Ellis Island, a similarly focused nonprofit group.

Drawing inspiration from his extensive travels and reinforcing his interest in history, Allan then founded and became president of the People of America Foundation and became co-developer of its social studies resources program, Americans All. The program includes printed texts and recordings, period-specific posters and photographs, and simulations and teacher's guides, all developed by a team of scholars led by Americans All co-developer Dr. Gail C. Christopher. More recent program components support excellence in social studies instruction by increasing access to high-quality resources for classrooms and professional development opportunities for teachers.

[Legacy Partners](#) are businesses and nonprofit organizations whose missions reinforce our goals of preserving legacy stories and supporting excellence in social studies instruction. They can be searched on our website by name, language, category and location. Nonprofits participate in Americans All at no cost because they host legacy stories their members have published on our Heritage Honor Roll to provide further exposure for them.

Individual or group stories can appear on more than one Legacy Partner landing page. A landing page can also be used to host individual and group Heritage Honor Roll stories in the same category.

Each legacy story and Legacy Partner page has a unique 6-digit identification code. For example, if you want to add your legacy story to the "American History" landing page, insert "566344" in the space provided when you open the [Share Your Honoree's Story with Legacy Partners](#), located in the information field.

# Point of Contact for a Nonprofit Group

The Union victory in 1865 marked the close of the Civil War. One of the most widely anticipated benefits of emancipation was freedom of movement. No longer confined by law to a slaveholder's plantation, most formerly enslaved African Americans expected to have the option of migrating. However, during Reconstruction, "vagrancy" laws, debt peonage and the convict-lease system were quickly implemented to curtail the new freedom. The labor of African Americans had been the mainstay of the Southern economy, so efforts to force them to remain and work in the communities where they had been enslaved often succeeded. This was because they were destitute, and the "40 acres and a mule" they expected never arrived.

The legal battle for equality continued with the passage of the 14th and 15th Amendments, but unfavorable Supreme Court decisions, Jim Crow laws, separate-but-equal policies and a campaign of terrorism carried out by the KKK and allied groups made sure that African Americans would not easily achieve their real freedom in the Southern states. Moreover, those who migrated to the North quickly realized they had not reached the promised land and continued to face discriminatory practices in housing and employment. Those that had migrated to the West, however, fared better. Finally, in 1954, the *Brown v. School Board of Topeka, Kansas*, decision declared segregation to be unconstitutional.

Despite the hardships, many native-born African Americans succeeded in almost all occupations. And, like all other ethnic and cultural groups who made a life for themselves and their families in America, the native-born African Americans have made—and continue to make—a vital contribution to our nation's growth.

## [African Americans: Involuntary and Voluntary Immigrants Who Helped Shape America](#)

We offer two historical perspectives on the African American experience. The first emphasizes the economic and cultural impact of Africans and their descendants in the United States. The second places Africans within the context of the immigrant experience, pointing out that African immigrants have been as ambitious and creative as any others and that their desire to live the American dream remains undiminished.

**First:** Different forces prompted immigration to the United States for each ethnic group. For the ancestors of most African Americans, the need for workers on plantations drove the immigration process. For nearly four centuries, European slave ships transported captive Africans from their homelands to the Americas. These Africans came to a land of bondage and faced a severe test of their powers of endurance. Among African Americans, the search for freedom in America has continued for generations. . . . While European immigrants were coming to America to escape political or religious persecution or to pursue a dream of economic security, Africans came involuntarily and were exploited to produce prosperity for others.

**Second:** Conventional wisdom encourages the belief that people of African descent came to the United States as latecomers, with the only early immigrants arriving as enslaved people and becoming, through acquired status and conditioning, a confined, secluded, homogeneous and subordinate group in society. Yet so much of this conventional thinking is untested and perhaps untrue. . . . Despite their fears as people of color, they came from distant homelands, attracted to the unlimited possibilities promised in the lore of the American way of life.

# Hispanic Americans' Contribution to Our Nation [\[Legacy Partner Page\]](#)

Although Hispanic people in the United States may be unified by a common Spanish language and cultural heritage, they are divided by race, geography, traditional differences, country of origin and the time and circumstances of their entry into this country. For most, that entry has been voluntary and has implied an acceptance of the unspoken obligation of the immigrants and the immigrants' descendants to adapt to their host country.

Central to the problem of how the United States is to deal with questions of language and culture is the fact that a large percentage of our native-born Mexican American citizens owe their presence to the U.S. policy of "manifest destiny"—a policy of conquest. The Spanish established communities in the Southwest during the late 1500s—before the Pilgrims landed on Plymouth

Rock. Mexico ceded these territories to the United States in peace treaties, and the individuals living in them—native language and all—became involuntary inhabitants of the United States in much the same way as Native Americans.

The end of World War II triggered major changes in the Anglo-Hispanic relationship. Significant Mexican immigration to the industrial cities of the Midwest had begun in the 1940s. At the same time, Mexican Americans in the Southwest had begun moving from rural to urban areas, and this trend has continued to increase dramatically. The 1980 census revealed that most Mexican Americans were urban residents.

Today's Chicano movement sprang from the seething 1960s and included young high school and university Chicanos and Chicanas who firmly proclaimed their ethnic pride and demanded improved educational opportunities, expanded community amenities and more responsive social agencies. During the 1970s, Mexican Americans began to participate in force in the social, political and economic life of their new communities and to develop national and regional organizations to articulate their special needs and concerns.

Because of the historic diversity, our website blends the perspectives of authors with differing points of view. The result is a balanced narrative that recognizes Mexican Americans' vital role in the history of the United States.

Mariano Guadalupe Vallejo hispanic, Mexican-American, Veteran, Politician, Rancher

Mariano Guadalupe Vallejo (c.1808–January 18, 1890) was a leader in the struggle for statehood for California. During his lifetime, he witnessed three nations rule California. Born to a wealthy family in Monterey, California, the eighth of 13 children, he entered military service at age 16. As a soldier when Mexico lost and California fell to Spain in 1821, Vallejo was a civilian in several California rebellions. Californians who rebelled against the Mexican government. In 1829 he led a successful mission against a band of runaway mission Indians. In 1833 he was named commander of the Presidio in San Francisco. In 1839 he was appointed commander of the fourth military district and director of colonization of the northern frontier, the highest military command in northern California.

His next major accomplishment came when Governor Jose Figueroa asked him to lay out a pueblo at the Salinas mission and authorized him to free the Indian workers and distribute the mission lands and assets to settlers. This colonization plan was designed to prevent further absorption of the Russian establishment of Fort Ross. As a reward for his success, he was given approximately 40 acres in the Russian colony to develop as his own private ranch. The agricultural empire and his steadily established civil and military careers made him one of the wealthiest and most influential men of his day in California.

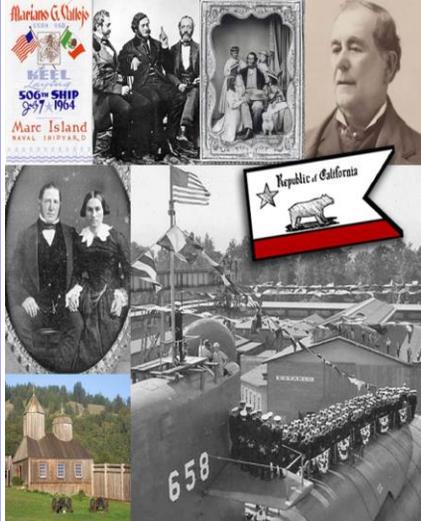

In 1841 the Russians decided to abandon their outposts at Bodega and Fort Ross and offered to sell the fort to Vallejo. After several months of delays in the negotiations, the fort was purchased by John Sutter. The purchase reinforced Vallejo's belief that California would be better served if it were ruled by the United States.

Mariano Guadalupe Vallejo (c.1808 - January 18, 1890) Hispanic, Mexican-American, Veteran, Politician, Rancher

Immigrated Vallejo and his family to California, and worked as a soldier of the Mexican War (1846-1848).

In 1846 Vallejo was one of eight Californians elected to the California Constitutional Convention. He then served three terms in the state legislature. Because his lands had been granted by the Mexican government, he spent much of the next decade successfully defending his land rights. He wrote the multivolume history of California to document the role played by California. The town of Vallejo, California, bears his name. In 1860, a Benjamin Franklin Class Ballistic Missile submarine named for him as the SSBN-688 was launched, and remained proudly in service until it was decommissioned in 1992. The Army, Marine Corps, Navy, Air Force, Space Force and Coast Guard are the armed forces of the United States. The Army National Guard and the Air National Guard are reserve components of their services and operate in part under state authority. From its inception during the American Revolutionary War, the U.S. Armed Forces has played a decisive role in the history of the United States. It helped forge a sense of national unity and identity through its victories in the First Barbary War and the Second Barbary War. It played a critical role in the American Civil War, keeping the Confederacy from seceding from the republic. The National Security Act of 1947, adopted following World War II, created the modern U.S. military framework.

The act established the National Military Establishment, headed by the secretary of defense, and created the U.S. Air Force and the National Security Council. It was amended in 1949, renaming the National Military Establishment the Department of Defense, and merged the cabinet-level Department of the Army, Department of the Navy, and Department of the Air Force into the Department of Defense. The U.S. Space Force (USSF) is a new branch of the Armed Forces. It was established December 20, 2019, within the Department of the Air Force, meaning the Secretary of the Air Force has overall responsibility for the USSF, under the guidance and direction of the Secretary of Defense.

## Americans All Social Studies Materials **Free for Members (\$500+ value)**

Standard textbooks used to teach social studies are like encyclopedias in which facts follow facts and no sense of drama or story exists. Students discover that things happened, but rarely is it clear why they happened or whether it mattered. Often the result is that young people tune out the past. We aim to accommodate students' different interests and learning styles and keep them engaged.
