Vitalize your Electro-Magnetic Field with EMV ornament

Energy Exchange (EE): Large EE € 99,-
XL EE € 119,- Own 'design' EE € 199,
See also video & FAQ on
www.emvenergy.info

Through the magnetic properties of the Electro-Magnetic Vitalizer(EMV) ornament, it discharges stress and tension releasing blockages. This stimulates blood flow and increases oxygen uptake capacity, giving your brain & body more oxygen to function. Due to the specially rotating mechanism, the 'right' discharge takes place continuously to be and stay young, fit & vital.

The EMV is especially suggested while driving, working on a computer, or in environments with increased radiation such as in offices or shopping malls and so on. The EMV reduces the impact of EMF radiation, increases your energy, thinking, and concentration ability, prevents muscle pain and joint pain, and resolves eye irritation. Ask your contact person about the readily available EMVs or visit the website and order your EMV Special or 'design' (assemble) your unique EMV with the EMV Wizard.

One-time **DISCOUNT € 10,-**

Contact: Ferial, +31 6 4342 1741

For whom and tips for use:

The EMV is suitable for young and old, with the exception of pregnant women or people with pacemakers or insulin pumps.

An EMV grounds you with mother earth again and therefore some adjustment is desirable. Start with 1 hour a day, then 2 hours, 3 hours and so on until you can wear the EMV all day. In practice, you will learn how long works best for you to be fit and vital.
