

Letter 1:

This letter will be from the Board of Directors to State PTA Presidents or their Equivalent State Organization and will be drafted after the new Board is formed.

Letter 2:

This letter will be from the State PTA President or Equivalent State Organization inviting County PTA Presidents or Equivalent County Organizations to serve as the coordinating partner for the pilot within their county.

Subject: *Invitation to Serve as the County Coordinating Partner for Americans All 2.0*

Dear [County PTA President or Equivalent County Organization Leader],

Our organization has been invited to participate in the pilot phase of **Americans All 2.0**, a new national initiative designed to create sustainable financial support for schools by connecting individuals, families, businesses, professional service providers, and schools through community participation.

Because successful implementation depends upon trusted local leadership, we invite your organization to serve as the coordinating partner within your county during the pilot.

Your role would be to help introduce the program to local schools and assist in coordinating outreach within your educational community. Program staff will provide the communication materials, implementation guidance, and ongoing support throughout the pilot, ensuring that participation does not create a significant administrative burden for your organization.

Enclosed is a brief overview of the initiative, including its goals, structure, and implementation strategy.

Participation in the pilot also gives your organization an opportunity to help shape the future of Americans All 2.0. Feedback from participating county organizations will play an important role in refining the program before it is introduced more broadly.

We hope you will review the enclosed materials and consider joining us in this important pilot effort to help build stronger schools and communities.

We look forward to speaking with you soon.

Sincerely,

[State Organization Representative]
