

4. BUSINESSES & PROFESSIONAL SERVICE PROVIDERS

What types of businesses can participate?

Virtually any local business or professional service provider can participate in Americans All 2.0. Participating businesses and professional service providers can engage with individuals, families, and community organizations while supporting schools and other nonprofit businesses.

Why should my business participate?

Participation allows businesses to connect with local individuals and families, offer benefits and promotions to members, and build relationships within their community while supporting schools and other nonprofits.

How much does it cost to participate?

After the pilot phase, participating businesses can continue to participate by paying \$8 per month if billed twice a year, or \$10.50 per month if billed monthly.

What does my business receive in return?

Participating businesses and professional service providers can connect with local individuals and families, promote their products and services through discounts, benefits, and promotions, and build lasting community relationships. Their participation also helps provide ongoing financial support for schools and other nonprofit businesses.

Can I support more than one school or nonprofit business?

The program's registration and support process will determine whether participating businesses can support more than one school or nonprofit business.

How are participating businesses promoted?

Participating businesses and professional service providers are listed in the Americans All 2.0 directory, where public visitors can explore the network and see who is participating. Members can use the directory to find participating businesses and professional service providers that accept their Membership Card and offer discounts, benefits, and promotions.
