Americans All was built through decades of educational innovation, national partnerships, and community-based work. Respected national leaders from a wide range of fields have guided and supported it, recognizing the importance of its mission. An independent researcher evaluated it, and schools and districts implemented it with feedback from educators and administrators. The results demonstrated positive outcomes consistent with the program's mission and goals.

Americans All Simulations and Lesson Plans

Simulations can motivate students to learn, sustain their interest, and reinforce mastery of a subject. These active, hands-on events prompt students to respond, assume roles, and consider the consequences of their actions and decisions. They engage students in ways that deepen their understanding and stimulate their critical- and creative-thinking skills. Simulations can also involve parents, other adult community members, and businesses in teaching and learning. Sample simulations are posted on our website.
