NOTICE

CITY OF IRONWOOD RECYCLING CHANGES EFFECTIVE SEPTEMBER 1, 2015

Effective SEPT 1, 2015 the City of Ironwood has contracted with Eagle Waste & Recycling, Inc. (Eagle Waste) based out of Ashland and Eagle River, WI to provide every other week **curbside recycling** for all eligible City of Ironwood residents. This enhanced service will include the addition of a 96-gallon recycling cart for every eligible household. These carts are a much easier and efficient way for you to recycle and will eliminate the need to drive to one of the four current recycling drop-off sites. The carts will be owned by Eagle Waste and provided to each eligible household prior to your first pickup by Eagle Waste. ***These deliveries will take place within the 1st week of September. After September 1st you will need to put your cart out by 7AM on your designated pickup day. A map with your scheduled pickup day is included for you.***

Each eligible household will receive one 96-gallon container for their recycling. The 96-gallon cart will be very simple and easy to roll out on your collection day due to the wheels on the container. ***If an extra recycling cart is needed, please contact Eagle Waste directly after October 1st at 715.477.0077 to make necessary arrangements for the additional cart.*** It will be provided at no additional cost for your usage. **Your cart will be picked up by our 'FULLY AUTOMATED' system. Your cart will need to be specifically located at the curb (or designated spot in the alley) and all recycling will need to be contained in the cart.**

You will be able to put all recyclables in your new cart. A list has been provided for your convenience. ***Remember, NO PLASTIC BAGS in the containers, just the loose recyclables. PAPER BAGS ARE FULLY ACCEPTABLE. Shredded paper may be included enclosed in a CLEAR plastic bag only.***

Eagle Waste will be scheduling every other week pickup for your new curbside program. Additional information concerning your pickup day and a recycling calendar is included. **Eagle Waste will be providing service on ALL HOLIDAYS with the exception of Christmas. If Christmas falls on one of our pickup days service will be delayed by one day.**

The City of Ironwood and Eagle Waste & Recycling, Inc. both look forward to the enhanced recycling service that will start on **September 1, 2015**, and also your patience and support as this transition takes place. **Please note that the dumpsters that are now at one of the four drop off locations will be removed shortly after the curbside recycling program starts on September 1.**
